This written statement regarding the substance of a telephone interview is being submitted in order to comply with 37 CFR §1.133(b).

A Final rejection was mailed on February 23, 2005 and a Notice of Appeal was filed on July 22, 2005 in this case. On September 19, 2005, Examiner DeBerry telephoned Daphne Reddy (Reg. No. 53,507) to discuss the prosecution of this case. It was agreed that Claim 137 would be amended to recite "an isolated host cell" and this amendment is reflected in the attached claims. Claim 135 has also been amended for proper claim dependency. No new matter has been added by these amendments and their entry is duly requested. The Examiner found the case allowable barring the citing of any prior art which may appear in the sequence search to be ordered by the Examiner. A request for change in inventorship reflecting the correct inventors who contributed to the present invention is also being concurrently filed, and its consideration is requested.
